

IT COOLING

CLOSE CONTROL AIR CONDITIONERS

# W-MEXT

**CHILLED WATER AIR  
CONDITIONERS FOR IT COOLING  
FROM 4 TO 25 kW**

 **MITSUBISHI  
ELECTRIC**  
*Changes for the Better*

**INSERT HERE YOUR  
CONTACT DETAILS**

**Mitsubishi Electric presents w-MEXT:  
the new chilled water close control  
air conditioner designed for small  
and medium data centers.**

# w-MEXT

The new chilled water unit is the result of the highest quality and reliability standards of Mitsubishi Electric applied to IT Cooling applications.

w-MEXT is a guarantee of precise, reliant and efficient air conditioning.

## w-MEXT UNDER/OVER

06/07

Chilled water Close Control Air Conditioner with downflow or upflow air delivery

## w-MEXT DL DISPLACEMENT VERSION

08/09

Chilled Water Close Control Air Conditioner with front air delivery

## w-MEXT DF DUAL FLUID VERSION

10/11

Chilled Water Close Control Air Conditioner with downflow air delivery

# W-MEXT

## LAN FUNCTIONS: CONNECT UP TO 15 UNITS, WITH DYNAMIC MASTER

Advanced LAN logics manage up to 15 units and, in case of a master unit failure, another master will be elected automatically, for utmost dependability.

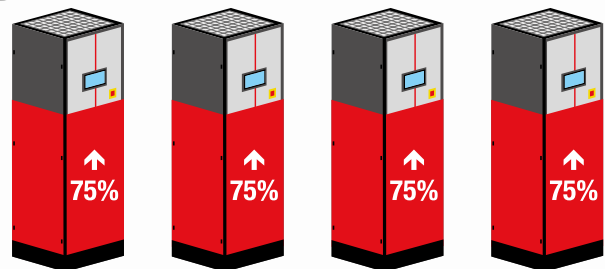

## ADVANCED SOFTWARE WITH USER-FRIENDLY INTERFACE

New graphical user interface designed for a quick and intuitive navigation.

## ACTIVE REDUNDANCY

**Active**  
Redundancy

Devoted group controls effectively share the load among all the connected units, leveraging on redundancy to reach higher efficiency.

# Higher efficiency, brilliantly embedded in a more compact layout.

## HIGHER COOLING CAPACITY IN A COMPACT DESIGN

New compact design that reduces the overall footprint and ensures the best kW/m<sup>3</sup> ratio on the market.

## FLEXIBLE CHOICE OF AIR FLOW DIRECTION

Achieve any cooling requirement thanks to the possibility of choosing between 3 types of air delivery: Front, top and bottom.

## MAINTENANCE-FREE EC FANS

Plug fans with EC electric motor:

- ▶ Maintenance-free motor
- ▶ Impeller in aluminium which greatly reduces power consumption.

## QUICK INSTALLATION AND EASY MAINTENANCE

All components are integrated inside the unit for a plug and play installation. Totally removable panelling on the front to facilitate maintenance.

**PLUG & PLAY**  
SOLUTIONS

# w-MEXT UNDER/OVER

**Chilled Water Close Control Air Conditioner  
with upflow or downflow air delivery**

## w-MEXT WITH DOWNFLOW AIR DELIVERY

The air distribution is from the bottom by means of the plenum between the building floor and the raised floor.

This solution is most favourable when the load is uniformly distributed in all areas of the room.

## w-MEXT WITH UPFLOW AIR DELIVERY

The air distribution is from the top of the unit directly into the room by a plenum (or duct). The supply air flow can be directed through the adjustable fins of the plenum grilles.

**TYPICAL INSTALLATION: DATA CENTERS WITH OR WITHOUT RAISED FLOOR**

## w-MEXT UNDER/OVER

**Notes:**

1 U = Under, downflow / O = Over, upflow.

2 Gross value. Characteristics referred to entering air at 26°C-40% RH; Chilled water temperature 10-15°C – glycol solution 0%; ESP=20Pa.

3 SHR = Sensible cooling capacity / Total cooling capacity.

4 Corresponding to the nominal ESP=20Pa.

5 Sound pressure level on air return at 1m.

6 Rubber pipe – referred to internal diameter.

7 Minimum section of the power cable for units without accessories.

# w-MEXT DL DISPLACEMENT VERSION

**Chilled Water Close Control Air Conditioner  
with front air delivery**

## w-MEXT WITH FRONT AIR DELIVERY

Suitable for server racks with vented front and rear doors.

Air suction is from the top of the unit and air delivery is horizontal into the cold aisle for cooling the racks

The hot air is expelled from the racks at the top or from the back.

**TYPICAL INSTALLATION: DATA CENTER WITHOUT RAISED FLOOR**

# w-MEXT DF

## DUAL FLUID

### SYSTEM

**Chilled Water Close Control Air Conditioner  
with upflow or downflow air delivery**

#### w-MEXT WITH UPFLOW OR DOWNFLOW AIR DELIVERY

The DUAL FLUID units allow the connection to two independent chilled water loops. The control automatically manages the use of the two cooling coils.

This solution represents the perfect choice to provide redundancy to the system or in case of heterogeneous cooling source availability (e.g. chillers and dry coolers).

**TYPICAL INSTALLATION:  
DATA CENTERS WITH OR WITHOUT RAISED FLOOR**

**w-MEXT DF**

# NEW TOUCH KEYBOARD

A completely redesigned interface improves the user experience.

The 7" touch screen display (opt.) with easy-to-read color graphics ensures the immediate visualization of the units' status and provide simple alarms and event management.

Dedicated menus show the main operating parameters like temperature, humidity, and ventilation.

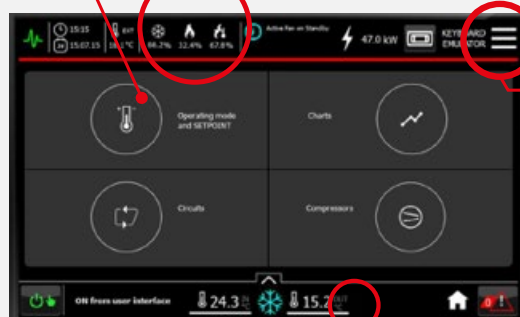

## 7" TOUCH DISPLAY

MULTILINGUAL

INTUITIVE ICONS  
for a better user experience

QUICK MENU ACCESS

REAL-TIME DISPLAY  
of main operating variables

# INNOVATIVE KIPLINK INTERFACE

Based on proprietary technology, KIPLink is an option that allows one to operate the unit directly from a mobile device smartphone, tablet, or notebook.

## EASIER ON-SITE OPERATION

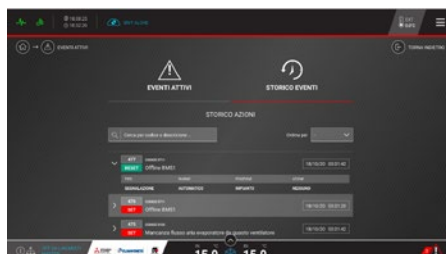

View and change all parameters thanks to an easy-to-understand interface and dedicated tooltips. Get devoted "help" messages for alarm reset and troubleshooting.

## REAL-TIME GRAPHS AND TRENDS

Monitor the immediate labour status of main components. View the real-time graphs of the key operating variable trends.

## DATA LOGGER FUNCTION

View history of events and use the filter for a simple search. Enhance diagnostics with data and graphs of 10 minutes before and after each alarm. Download all the data for detailed analysis.

# KIPLINK CONNECTIVITY

Keep in touch with your unit's control with KIPlink.

LOCAL WI-FI

LAN PORT

## WI-FI KEYBOARD

Close to the unit with MEHITS APP access

## MOBILE DEVICE

Direct access to the control is achieved by scanning the QR-code positioned on the front side of the unit.

## REMOTE CONTROL

In local network (LAN) of building with internet browser

## BROWSER

With a simple Ethernet connection, it is possible to connect KIPLink to the facility LAN and get full access to the unit's control with a browser. All the menus and functions are available with total security.
